

INDOOR QUORPORATE GAMES

Fun team-based **croquet**, **petanque**, **quoits** and **quornhole** for 2 to 16 players each...

Try the **MICROQUET CHALLENGE**...

Game: each player gets 2 shots per go – the first to position the ball within range of the hoop, the second to hit it through. Each side of 1-4 players gets 4 balls of one colour and the first side to get all its balls through wins the challenge. A fun have-a-go activity...

Set-up: for authenticity we use outdoor Jaques equipment and 2 lanes of artificial grass each with 1 hoop fixed to a concealed base plate. Minimum space requirements are 2.5m wide x 5.5m long for 2 players per lane or up to 8.5m long for 8 players per lane.

Indoor croquet lawn: the larger indoor croquet lawn requires minimum 9m x 5m and minimum 4 hours' set-up; if you can provide this, please ask for the separate fact sheet.

QUORNHOLE: really quite American...

Game: adapted from the popular US Cornhole game, players take turns to throw bags of 'corn kernels' at a raised board with a hole in the far end. Each side can be of 1-4 people and each player gets at least 2 bags: a bag that drops through the hole scores 3 points, and one that remains on the board scores 1 point.

Set-up: with the authentic set-up outdoors players throw from one board to the other but indoors we separate the two boards to make two lanes – minimum width for each lane being 2.5m with a ceiling clearance required of 12 ft/3.66m. The pitcher should toss the bags from a distance of 27ft (8.2m) though this can be reduced to 20 ft (6m).

INDOOR QUORPORATE GAMES

Fun team-based **croquet**, **petanque**, **quoits** and **quornhole** for 2 to 16 players each...

QUOITS: really quite British...

Set-up: our **quoits** can be played on a dance floor and then **quickly** removed. Otherwise, for pre-booked indoor **quoits** we set up the 2 lanes using our artificial grass - each lane can be as little as 5m x 1m, with spacing in between of minimum 0.5m.

Game: each side can be of 1-4 people and each player gets 2 or 3 of our (not at all floppy) steel-reinforced **quoits** – either red or blue depending on the team they're in. Each of the 4 target circles is worth 1, 2, or 3 points; and if you get a **quoit** in each, it's worth more; and if you throw a **quoit** over one of the wooden stakes it doubles the team score - unless of course this is cancelled out by a ringer thrown by the opposing team.

PETANQUE: uniquely French...

Set-up: our two target mats are 1.2m square with minimum spacing **required** between each. With **quads** max capacity is therefore 16 players. We use proper French red and black indoor **petanque** balls hard enough to roll but soft enough not to do any damage!

Game: teams throw alternately so each player can improve his or her team's own score or attack the opposition by knocking one of their boules into a less favourable position.

NOTES: the games as described here for indoor use must all be booked in advance

For outdoor games made unplayable by bad weather, given enough space we offer indoor back-up on the day; **quoits** replaces **croquet**; soft ball target boules replaces standard **petanque**; and our **quornhole** and **quoits** set-ups can be moved indoors

Fun have-a-go indoor **croquet**/**petanque**/**quoits**/**quornhole** - min 1 hr set-up required per game
